**SURVEY ON WOMEN ISSUES**

**THONNAMKUZHI RESIDENCY,  
ARPOOKARA PANCHAYATH**

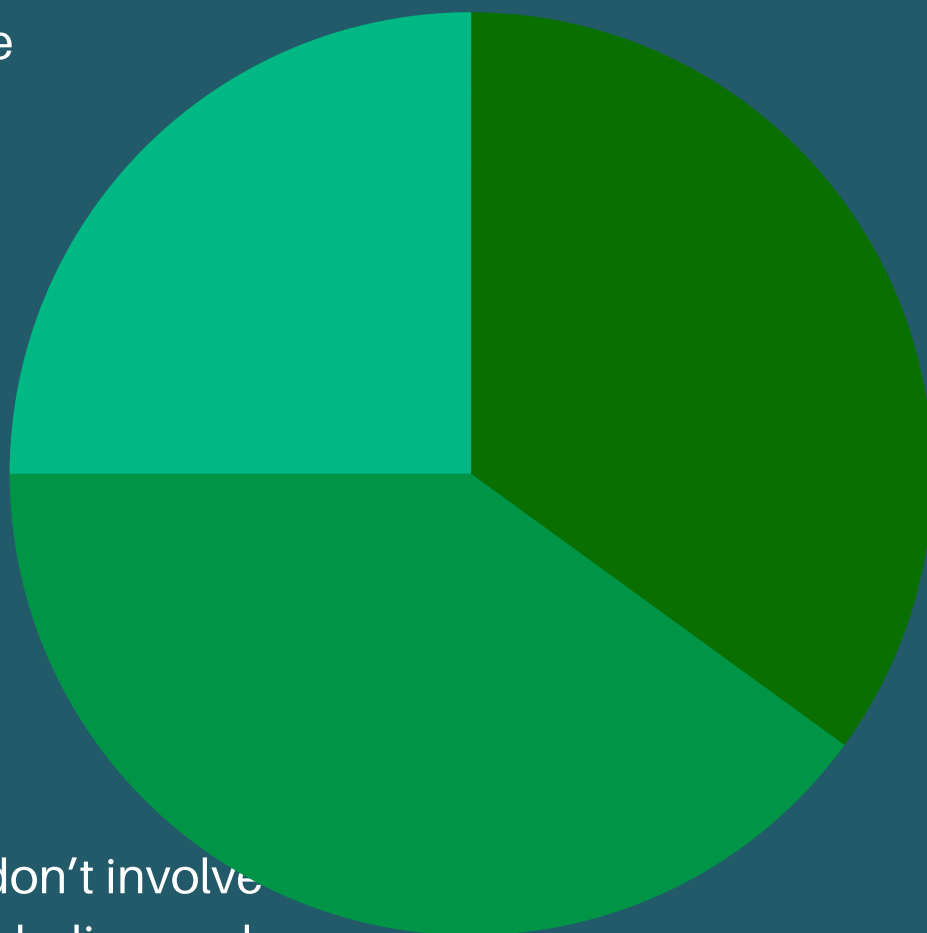

# Do men involve in the household chores willingly?

They dont involve  
even though we  
want them to  
25%

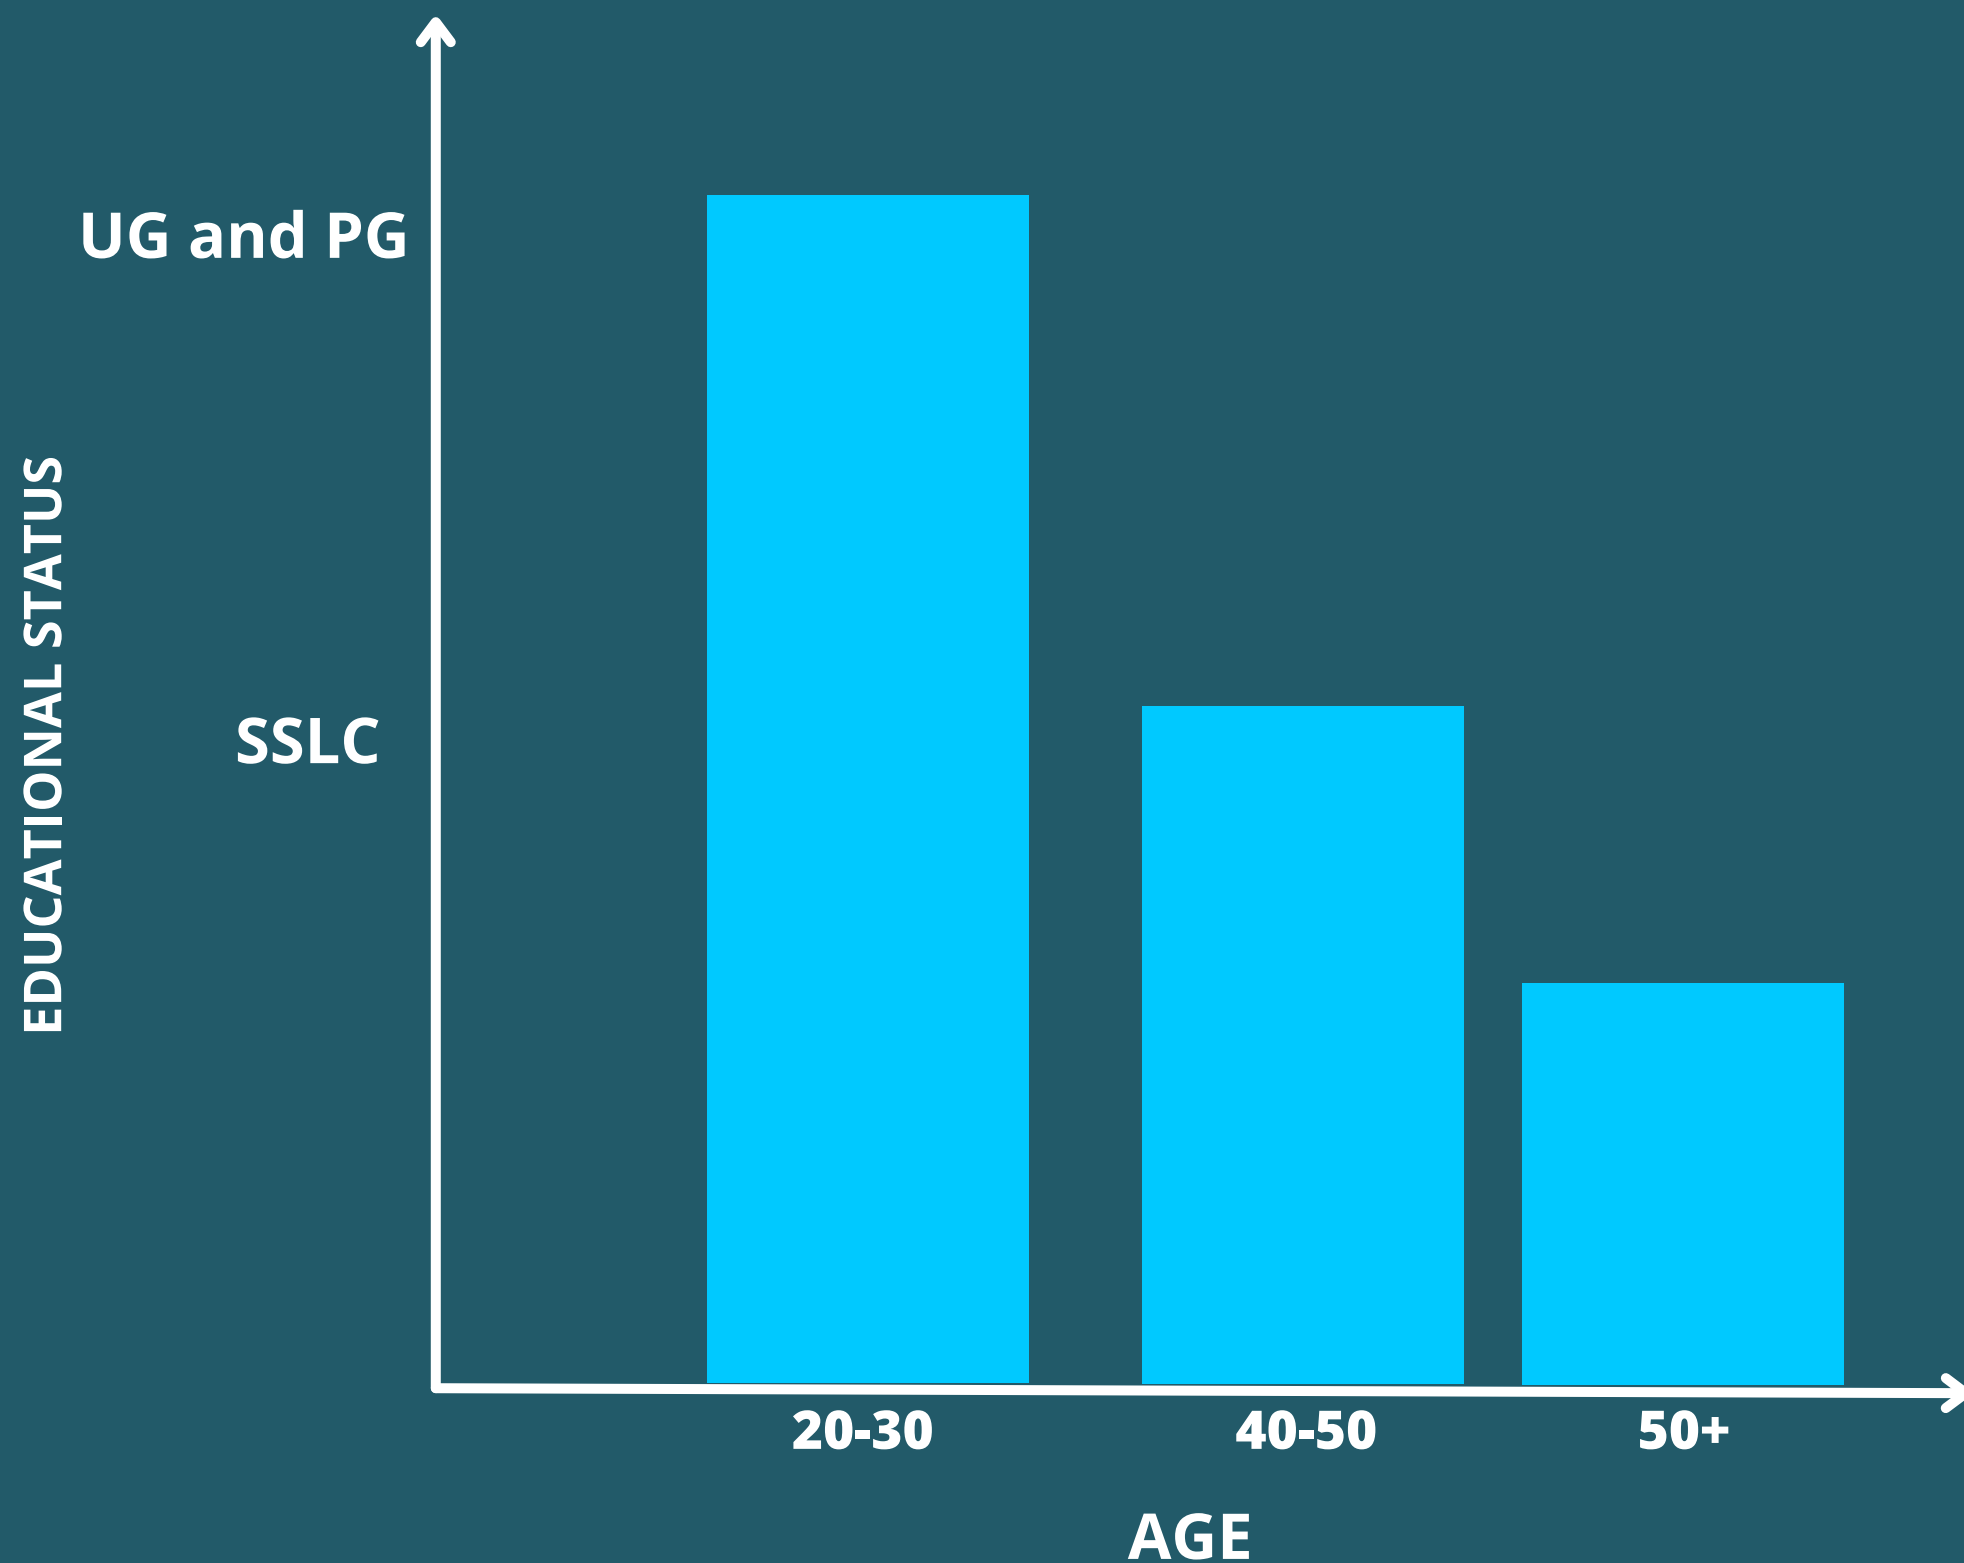

They do involve  
actively  
35%

They don't involve  
and we believe only  
women are meant for  
household chores  
40%

# Report on Education Status

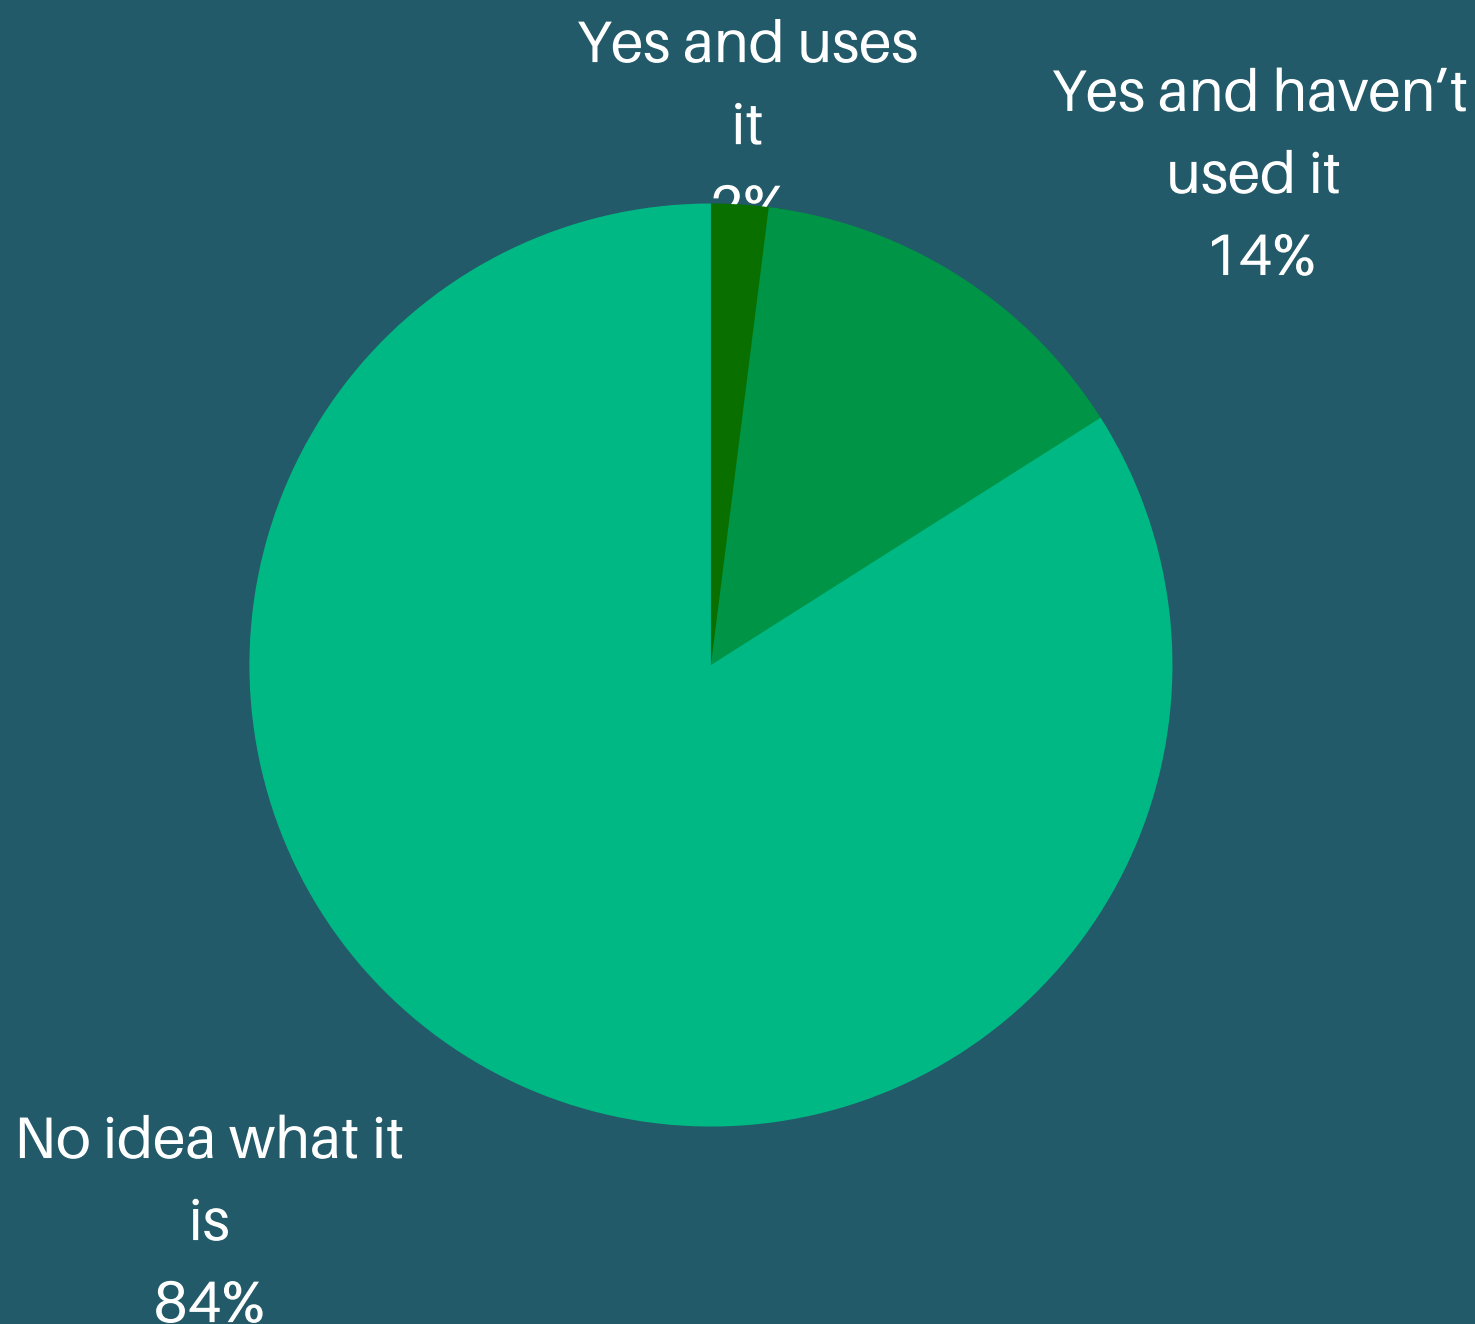

# Are Men and Women equally treated in your household?

# Do you have idea on menstrual cups and have used it even once?

# SURVEY REPORT

We, the students of Kottayam Medical College, working under the banner of INDEPENDENTS KMC conducted a survey among the women population residing in Thonnamkuzhi residency area in Arpookara Panchayath. Around 45 houses were visited and views of the women were recorded on various social aspects with the help of an already prepared questionnaire.

But unfortunately, it was disappointing to learn that even in 2022, there were many who believed in the concept of male supremacy in the family and were willing to adjust to a highly patriarchal system to which they were conditioned

# SURVEY REPORT

It was heartening to note that there were some who expressed resentment in the existing system which traditionally considered women as inferior to men and denied them of the same privileges that men enjoy in the society.

As a part of the survey, an awareness was given to the women on the concept of feminism and on the importance of being self reliant. In addition to that we talked to adolescent girls and adult women in the reproductive age group about menstrual hygiene, healthy and eco friendly menstrual products like menstrual cups and also debunked many menstrual taboos

# SURVEY REPORT

We sincerely hope that our initiative will bring at least a small change in the mindset of the women in the area. Sincerely looking forward to bring about a change in the society through similar social outreach programs.
